Experience

NOV 2023 - Present

Equifax Analytics | Trivandrum , Kerala

Quality Automation Engineer - Consumer Credit Report Generation

- Working at one of the top global credit bureaus, with strong domain knowledge and expertise in CI/CD pipelines. Proficient in Jenkins and focused on API testing.
- Hands-on experience with the GCP platform, adhering to Agile standards. Automating manual testcases and intergrating them to CI/CD Pipelines for frequent prod releases.

SEP 2023 - NOV 2023

PTEC (Subsidiary of UST Global) | Trivandrum , Kerala

Tester III - Mainframe to Cloud Migration Project

- Gained expertise in API testing and frameworks, with tools like Bruno, Postman, and CI/CD pipelines.
- Utilized GitHub, JIRA, and MySQL for project management and database handling. Proficient in REST Assured, Java, TDD, Jenkins, and Agile methodologies, improving testing quality and efficiency.

JUL 2021-SEP 2023

Wipro Limited | Chennai

Test Engineer - MT to MX Migration Project

- Worked on the migration of international payments from MT to MX formats, focusing on cross-border transactions, specialized in **SEPA and CHAPS**.
- Played a key role in developing and executing automated test scripts to ensure the seamless transition and accuracy of payment processing.
- Collaborated closely with cross-functional teams to identify and resolve issues, enhancing the efficiency and reliability of the payment system.
